

Should a second home get second best?

A modern villa, a château or a ski chalet can suffer big damages to both: the building itself and to its exclusive contents (good quality furnishings, modern art, some antiques...) caused by accidents, natural disasters or even by robbery. At Hiscox we believe that whatever it is your residence, your family and your home deserve a special protection and care, with a level of service according to Hiscox. A service that's second to none.

The benefits of a Policy tailored with Hiscox

The limitations of a typical policy

1 All risks cover. What is not excluded is covered.

2 Worldwide all risks automatically given.

3 Relationship is based on trust. We always assume that your claim is a valid one.

4 You can insure several properties under one policy.

5 Wording and claims service in plain English.

6 A complimentary survey of the home, when the policy is incepted, to help assess the client's needs.

1 Restrictive limits. What is not specified is excluded.

2 Cover limited to loss or damage inside the home.

3 Clear evidence of damage or even invoices are required.

4 Different policies required for different properties.

5 Wording and claims service in local language or broken English.

6 Restriction on cover if there is evidence of under-insurance when a loss happens.

A policy tailored to fit your needs.
A superb service.

One size doesn't fit all
